	Pro Standard Station/Theodolite	up to 2 services per year (can be 2 different instruments), function and alignment check, firmware updates if required, recharge any rechargeable batteries, PAT test any chargers, battery output check any rechargeable batteries, levelling screw service, full clean including accessories, priority turn around, delivery and collection fees, replacement hire included.	£45 ex VAT	£540 ex VAT
	Pro Robot	up to 2 services per year (can be 2 different instruments), calibration and alignment check, firmware updates, software updates if within license availability, recharge any rechargeable batteries, PAT test any chargers, battery output check any rechargeable batteries, levelling screw service, full clean including accessories, priority turn around, delivery and collection fees, replacement hire included.	£85 ex VAT	£1020 ex VAT
Max	Max Laser	Up to 4 services per year on the same instrument, full calibration, receiver check & battery change, PAT test any chargers, battery output check any rechargeable batteries, full clean including accessories, recharge any rechargeable batteries, priority turn around, delivery and collection fees.	£30 ex VAT	£360 ex VAT
	Max Grade/Pipe	Up to 4 services per year on the same instrument, full calibration, gradient check, receiver and remote control check & battery change, PAT test any chargers, battery output check any rechargeable batteries, full clean including accessories, recharge any rechargeable batteries, priority turn around, delivery and collection fees.	£40 ex VAT	£480 ex VAT

	Max Locator	up to 4 services per year on the same instrument, eCertification for locator where appropriate, function check on signal generator and analogue locators, replacement batteries, full clean including accessories, priority turn around, delivery and collection fees.	£45 ex VAT	£540 ex VAT
	Max GNSS	up to 4 services per year on the same instrument, function check, firmware updates, software updates if within license availability, PAT test any chargers, battery output check any rechargeable batteries, full clean including accessories, recharge any rechargeable batteries, priority turn around, delivery and collection fees.	£45 ex VAT	£540 ex VAT
	Max Standard Station/Theodolite	up to 4 services per year on the same instrument, function and alignment check, firmware updates if required, recharge any rechargeable batteries, PAT test any chargers, battery output check any rechargeable batteries, levelling screw service, full clean including accessories, priority turn around, delivery and collection fees.	£55 ex VAT	£660 ex VAT
	Max Robot	up to 4 services per year on the same instrument, calibration and alignment check, firmware updates, software updates if within license availability, recharge any rechargeable batteries, PAT test any chargers, battery output check any rechargeable batteries, levelling screw service, full clean including accessories, priority turn around, delivery and collection fees.	£110 ex VAT	£1320 ex VAT
Ultra	Ultra Laser	Up to 4 services per year (can be 4 different instruments), full calibration, receiver check & battery change, PAT test any chargers, battery output check any rechargeable batteries, full clean including accessories, recharge any rechargeable batteries, priority turn around, delivery and collection fees, replacement hire included.	£45 ex VAT	£540 ex VAT
	Ultra Grade/Pipe	Up to 4 services per year (can be 4 different instruments), full calibration, gradient check, receiver and remote control check & battery change, PAT test any chargers, battery output check any rechargeable batteries, full clean including accessories, recharge any rechargeable batteries, priority turn around, delivery and collection fees, replacement hire included.	£50 ex VAT	£600 ex VAT
	Ultra Locator	up to 4 services per year (can be 4 different instruments), eCertification for locator where appropriate, function check on signal generator and analogue locators, replacement batteries, full clean including accessories, priority turn around, delivery and collection fees, replacement hire included.	£55 ex VAT	£660 ex VAT

	Ultra GNSS	up to 4 services per year (can be 4 different instruments), function check, firmware updates, software updates if within license availability, PAT test any chargers, battery output check any rechargeable batteries, full clean including accessories, recharge any rechargeable batteries, priority turn around, delivery and collection fees, replacement hire included.	£115 ex VAT	£1380 ex VAT
	Ultra Standard Station/Theodolite	up to 4 services per year (can be 4 different instruments), function and alignment check, firmware updates if required, recharge any rechargeable batteries, PAT test any chargers, battery output check any rechargeable batteries, levelling screw service, full clean including accessories, priority turn around, delivery and collection fees, replacement hire included.	£95 ex VAT	£1140 ex VAT
	Ultra Robot	up to 4 services per year (can be 4 different instruments), calibration and alignment check, firmware updates, software updates if within license availability, recharge any rechargeable batteries, PAT test any chargers, battery output check any rechargeable batteries, levelling screw service, full clean including accessories, priority turn around, delivery and collection fees, replacement hire included.	£180 ex VAT	£2160 ex VAT

All subscriptions prices exclude any costs related to neglect or misuse (accidental or otherwise) and the cost of any non-service parts required i.e software license renewals, broken or defective chargers and receiver brackets. Any items required outside of the usual subscription offer will be quoted for separately.

Subscriptions that include replacement hire items exclude insurance to cover the hire period – this can be provided on request at an additional fee. Any hire replacements that are returned damaged or needing repair/replacement parts are not covered in the cost and will be billed separately.

Pro and Ultra Subscriptions can be used for any item within that category up to the service level. Hire replacements will be an equivalent item and may not be the same model or make that is booked for service.

Essential and Max Subscriptions are limited to the same instrument for each service.
